EMISSIONS INVENTORY

in less than

10 MINUTES

EI/AI App

EnviroAI is building an app with its partners to deliver an emissions inventory ready for review and signature in less than 10 minutes.

---“Companies pay thousands of dollars to prepare these inventories. It takes way too much time. It takes way too much manual manipulation. It takes way too much money. EnviroAI will use our data technology platform and expertise in IoT/ML to make this task almost as simple as touching a button. Under 10 minutes is our goal. Simpler. Faster. Better.”
