Privatized Environmental Protection

AI & Quantum Tech in Environmental Protection

“Nature is a quantum system. A planetary computer therefore must be a quantum system. Quantum system to protect a quantum system.”

- Jed Anderson, CEO, EnviroAI

---“The artificial intelligence system we are building will essentially begin to privatize environmental protection in the United States. Once we start to protect the environment more of our own accord, we won’t need as much government. We will be operating more under grace than law.”

- Jed Anderson, Creator, EnviroAI
