The Environmental Matrix

---“A-C-T-G ... it’s code.”

---“Language ... it’s code.”

---“Binary ... it’s code.”

---“Qubits ... it’s code.”

Quantum Data

Classical Data

(binary computer)

```
01001010010101
10101101110000
10011110000111
10101011111000
01010111100011
01010101010101
11010110101011
```

Biological Data

```
ACTGACTGACTTAGG
ATTCGAGATCCATTC
CTTGAGACCTTTTT
ACCCCTATAGCATCA
TTCCAGGATCTATTAT
CCTATATATAGGGGC
CCATATAAATGGGCT
```

Human Data

Language data (letters), sensory data (visual images), numeric data (numbers)

CONNECT THE DATA

---“The environment is running code. The code creates a beautiful reality, and of course I believe the reality is ‘real’.

The key to protecting the environment is to get this code and information talking together. To use the same fundamental data language so we can better see the interconnections, relationships, and allow for better data transference.”

- Jed Anderson, EnviroAO

---“Nature isn’t classical dammit. And if you want to make a simulation of nature, you’d better make it quantum mechanical.”

- Richard Feynman

Can we create a system where we will no longer need to “dodge environmental bullets”?

YES WE CAN.
