# What's the return on investment?

December 22, 2021

“Environmental Metaverse”

.

EnviroAI is currently delivering an 11,000% return-on-investment (ROI) to our large Fortune 500 customers [with complicated environmental programs].

---“I’m not content with this number. In fact, I think it’s terrible. We can do much better than 11,000%.”

- Jed Anderson, EnviroAI

**ROI = 11,011%**

... how to further increase ROI?

Our goal with the “EnviroVerse” is to help environmental managers deliver a 200,000% ROI to their companies [for every dollar spent, these managers are saving or making their company \$200,000]

---“Technology is starting to really increase profits ... and make environmental work even more fun, interactive, and rewarding.”

- Jed Anderson, EnviroAI

“Work meetings will move to the Metaverse in 2-3 years.”

— Bill Gates

# The *EnviroVerse*

3 key design features to the EnviroVerse:

1. Component of the metaverse
2. Inclusive of nature [It is the only metaverse ecosystem that includes nature as a component—all others are focused only on human needs and desires]
3. Quantum-based [Eventually the EnviroVerse will be quantum-based since nature operates more fundamentally at this level]

Our development team completed 3D implementation last week. This week we are working on avatar creation. Stay tuned!
